What to do next

1. Put 2027 in your diary.

That is when the re-tender window for your contract with a university or college opens (an estimate).
2. Get your papers ready:

tenders usually ask for tax clearance, insurance, a safety statement and references.
3. Try Holdfast free for 30 days at [holdfastcontracts.com](#)

(no card needed): morning alerts for grounds & landscaping, a reminder before each of your contracts comes back, and one bid draft.

Estimate: no contract length was published, so 4 years is assumed. Re-tender windows (about 6 months before a contract ends) are estimates too. Values are award ceilings, not amounts paid. Source: EU TED public notices.
